B) PAN DETAILS

As per SEBI Circular No. MRD/DoP/Cir- 05/2007 dated April 27, 2007, it is now mandatory that Permanent Account Number (PAN) issued by the Income Tax Department would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction. Accordingly investors will be required to furnish a copy of PAN together with the Application Form. Application Forms without these information and documents will be considered incomplete and are liable to be rejected without any reference to the investors. The procedure implemented by the AMC and the decisions taken by the AMC in this regard shall be deemed final.

C) DETAILS FOR COMPLIANCE WITH ANTI MONEY LAUNDERING REGULATIONS OF SEBI

Prevention of Money Laundering Act, the SEBI Circulars on Anti Money Laundering and the Client Identification implementation procedures prescribed by AMFI inter alia require the AMC to verify the records of identity and address(es) of investors. To ensure adherence to these requirements, investors are required to approach Points of Service (POS) (list of POS available on amfiindia.com) appointed by any of the KYC Registration Agency and submit documents for completion of appropriate KYC checks. The details for KYC compliance can also be downloaded from AMFI website, www.amfiindia.com or website of the mutual fund, www.idfcmf.com. The Mutual Fund website also prescribes the list of documents that can be submitted by investors to the POS to get their KYC checks completed.

It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to furnish such documents and information as may be required to comply with the Know Your Customers (KYC) policies under the AML Laws. Applications without such documents and information may be rejected.

In terms of SEBI circulars dated April 27, 2007, April 03, 2008 and June 30, 2008 read with SEBI letter dated June 25, 2007, Permanent Account Number (PAN) would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction, except (a) investors residing in the state of Sikkim; (b) Central Government, State Government, and the officials appointed by the courts e.g. Official liquidator, Court receiver etc. (under the category of Government) and (c) investors participating only in micro-pension. SEBI, in its subsequent letters dated June 19, 2009 and July 24, 2012 has conveyed that systematic investment plans (SIP) and lumpsum investments (both put together) per mutual fund up to ₹ 50,000/- per year per investor shall be exempted from the requirement of PAN. Accordingly, investments in IDFC Mutual Fund (including SIP investment where the aggregate of SIP installments in a rolling 12 months period or in a financial year i.e April to March) of upto ₹ 50,000/- per investor per year shall be exempt from the requirement of PAN. However, eligible Investors (including joint holders) should comply with the KYC requirement through registered KRA by submitting Photo Identification documents as proof of identification and the Proof of Address [self-attested by the investor / attested by the ARN Holder/AMFI distributor]. These exempted investors will have to quote the "PERN (PAN exempt KYC Ref No) in the application form. This exemption of PAN will be applicable only to investments by individuals (including NRIs but not PIOs), joint holders, Minors and Sole proprietary firms. PIOs, HUFs and other categories of investors will not be eligible for this exemption.

Thus, submission of PAN is mandatory for all other investors existing as well as prospective investors (except the ones mentioned above) (including all joint applicants/holders, guardians in case of minors, POA holders and NRIs but except for the categories mentioned above) for investing with mutual funds from this date. Investors are required to register their PAN with the Mutual Fund by providing the PAN card copy (along with the original for verification which will be returned across the counter). All investments without PAN (for all holders, including Guardians and POA holders) are liable to be rejected. Application Forms without quoting of PERN shall be considered incomplete and are liable to be rejected without any reference to the investors. The procedure implemented by the AMC and the decisions taken by the AMC in this regard shall be deemed final.

After completion of KYC compliance, investors need to approach KRA for Change of Address and not Registrar (CAMS). In respect of KYC compliant Folio, prospective Change of Address received along with transaction slip will not be processed by Registrar (CAMS). The AMC reserves the right to reject subscription requests in the absence of appropriate compliance with the AML Laws.

In line SEBI circular No. MIRS/Cir-5/2012 dated April 13, 2012 and various other guidelines issued by SEBI on the procedural matters for KYC Compliances, the following additional provisions are applicable effective December 1, 2012:

This uniform KYC submission would be a onetime submission of documentation.
- Investors who have complied with KYC process before December 31, 2011, will be required to submit 'missing/not available' KYC information and complete the IPV requirements.
- In case of Non Individual investors, complied with KYC process before December 31, 2011, KYC needs to be done afresh due to significant and major changes in KYC requirements.

- Further, investors investing under a SIP up to ₹ 50,000 per year i.e. the aggregate of installments in a rolling 12 month period ("Micro SIP"), are also required to comply with the above mentioned KYC procedure. However, they are exempt from the requirement of providing PAN as a proof of identification.

Ultimate Beneficial Owner(s) : As per the requirements of Anti-Money Laundering related laws and regulatory guidelines on client due diligence and identification of Beneficial Ownership, investors (other than Individuals) are required to provide details of 'Ultimate Beneficial Owner(s) [UBO(s)]'. For the purpose of these guidelines, UBO means the natural person or persons who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, and includes those persons who exercise ultimate effective control over a legal person or arrangement. In case the investor or owner of the controlling interest is a company listed on a stock exchange or is a majority owned subsidiary of such a company, the details of shareholders or beneficial owners are not required to be provided. Non-individual applicants/investors are mandated to provide the details on Ultimate Beneficial Owner(s) (UBOs) by filling up the declaration form for 'Ultimate Beneficial Ownership'. Please contact the nearest Investor Service Centre (ISC) of IDFC Mutual Fund or visit our website www.idfcmf.com for the Declaration Form.

Investment strategy of the scheme	The aim of the Investment Manager will be to allocate the assets of the Scheme between various money market and fixed income securities with the objective of achieving optimal returns with a highly liquid portfolio. The actual percentage of investment in various fixed income securities will be decided after considering the prevailing political conditions, the economic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity and other considerations in the economy and markets. The AMC may approach rating agencies such as CRISIL, ICRA, etc for ratings of the scheme.			
Credit Evaluation Policy	<p>Credit Evaluation Policy</p> <p>The credit evaluation policy of the AMC entails evaluation of credit fundamentals of each underlying exposure. Some of the major factors that are evaluated are:</p> <ol style="list-style-type: none"> Outlook on the sector Strength & Support of the Parent (promoters/sponsors/holding company or group) Quality of management Overall financial strength of the credit as determined by key financial ratios. <p>Ratings of recognized rating agencies are taken as a reference point in the credit evaluation process. Investments in bonds and debenture are made usually in instruments that have high investment grade ratings by a recognized rating agency.</p>			
Tenure of the Scheme	2233 days (including the date of allotment). If the maturity date falls on a non business day, the maturity date shall be the next business day			
Intended asset allocation	The scheme shall invest in various securities/ instruments as mentioned below with the ratings mentioned against the type of instrument. 	Instruments	Rating		
		Not Applicable		
	Treasury Bills, Cash Management Bills, and Triparty Repo, reverse repo	0-5%		
	Securities issued by the Government of India / State Development Loans (SDLs)	95-100%		
	<ol style="list-style-type: none"> The Scheme shall endeavour to invest in instruments having credit rating as indicated above or higher. In case instruments/securities as indicated above are not available or taking into account risk - reward analysis of instruments/securities, the Scheme may invest in Certificate of Deposits (CDs) having highest ratings/ Triparty Repo/ Government Securities/Reverse Repo and Repo in Government Securities/T-bills. All investment shall be made based on the rating prevalent at the time of investment. In case security is rated by more than one rating agency, the most conservative rating would be considered. In case of downgrades of an instrument, the Fund Manager shall endeavor to rebalance the portfolio on a best effort basis within 30 days. The Scheme would not invest in unrated securities (except Triparty Repo /Reverse Repo and Repo in Government Securities/Government Securities/T-bills). In the event of any deviations from the ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 days from the date of the said deviation. Securities with rating AA shall include AA+ and AA-. Further, the allocation may vary during the tenure of the Scheme. Some of these instances are: (i) coupon inflow; (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event. In case of such deviations, the Scheme may invest in CDs of highest rating/Triparty Repo /Government Securities/Reverse Repo and Repo in Government Securities/T-Bills. At the time of building up the portfolio during the NFO or towards the maturity of the scheme, there may be higher allocation to cash or cash equivalents. <p>The rebalancing will be subject to market conditions and in the interest of the investors. If the fund manager for any reason is not able to rebalance the asset allocation within above mentioned period, the matter would be put up to the Investment Committee for further direction. The Investment Committee shall then decide on the course of action for exposure falling outside the asset allocation / intended asset allocation and as considered necessary, may further direct the manner for rebalancing the same within the range of the asset allocation as mentioned above.</p> <p>In the event of any deviation specified at para 1, 2, 3, 5, 7, 8, the Fund Manager shall review and rebalance the portfolio within 30 days from the date of such deviation.</p>			

<p>Sector wise restrictions</p>	<p>The scheme would not invest more than 20% of net assets in any sector. For the purpose of identifying sector, we would use AMFI sector definitions. However, this limit is not applicable for:</p> <ul style="list-style-type: none"> • AAA rated instruments of PFIs and AAA rated instruments of PSU Banks • Triparty Repo • Bank Certificate of Deposits • Government of India securities • Treasury Bills <p>Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only. Further, an additional exposure of 5% of the net assets of the Scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and / or affordable housing loan portfolio.</p> <p>Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme.</p>
<p>Risk Profile of the Scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <ul style="list-style-type: none"> • Price-Risk or Interest-Rate Risk: Fixed income securities such as Bank CD run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. • Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate. • Basis Risk (Interest - rate movement): Basis risk in finance is the risk associated with imperfect hedging. It could arise because of difference in performance of both the asset classes (e.g., long 5 year bond at 9% and pay 5 year OIS at 7.00%, giving spot spread of 200 bps, this spread may increase or decrease in future depending upon market conditions as both these asset classes may not move in identical manner). • Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions, the spreads may move adversely or favorably leading to fluctuation in the NAV. • Liquidity Risk: Due to the evolving nature of the floating rate market, there may be an increased risk of liquidity risk in the portfolio from time to time. • Other Risk: In case of downward movement of interest rates, floating rate debt instruments will give a lower return than fixed rate debt instruments. • Credit Risk: In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent. Different types of securities in which the scheme would invest as given in the scheme information document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated. Similarly, unrated securities may be comparatively more risky than rated securities. • Quality Risk: This is the risk of investing in unsustainable/weak companies. • Price/timing risk: This is the risk of Risk of buying the bonds at lower yields compared to fair value due to timing of purchases. Being a close-ended fund, the portfolio is built at the same time and investors are exposed to timing risks. • Short-selling of Securities: Purchasing a security entails the risk of the security price going down. Short selling of securities (i.e. sale of securities without owning them) entails the risk of the security price going up there by decreasing the profitability of the short position. Short selling is subject to risks related to fluctuations in market price, and settlement/liquidity risks. If required by the Regulations, short selling may entail margin money to be deposited with the clearing house and daily mark to market of the prices and margins. This may impact fund pricing and may induce liquidity risks if the fund is not able to provide adequate margins to the clearing house. Failure to meet margin requirements may result in penalties being imposed by the exchanges and clearing house. • Securities Lending: Engaging in securities lending is subject to risks related to fluctuations in collateral value and settlement/liquidity and counter party risks. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity. <p>Risks associated with segregated portfolio:</p> <ol style="list-style-type: none"> 1. Liquidity risk - A segregated portfolio is created when a credit event / default occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event. Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that an active secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them. 2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors. <p>Listing related risks:</p> <p>Listing of the units of the fund does not necessarily guarantee their liquidity and there can be no assurance that an active secondary market for the units will develop or be maintained. Consequently, the Fund may quote below its face value / NAV.</p>

	<p>Trading in Units of the respective Series on the Exchange may be halted because of market conditions or for reasons that in view of Exchange Authorities or SEBI, trading in Units of the respective Series is not advisable. In addition, trading in Units of the Scheme is subject to trading halts caused by extraordinary market volatility and pursuant to Exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of Exchange necessary to maintain the listing of Units of the respective Series will continue to be met or will remain unchanged. Any changes in trading regulations by the Stock Exchange(s) or SEBI may inter- alia result in wider premium/ discount to NAV. The Units of the respective Series may trade above or below their NAV. The NAV of the respective Series will fluctuate with changes in the market value of Series holdings. The trading prices of Units of the respective Series will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the respective Series. The Units will be issued in demat form through depositories. The records of the depository are final with respect to the number of Units available to the credit of Unit holder. Settlement of trades, repurchase of Units by the Mutual Fund on the maturity date will depend upon the confirmations to be received from depository (ies) on which the Mutual Fund has no control.</p> <p>The market price of the Units of the respective Series, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the Unit (or NAV), and (2) demand and supply of Units in the market. Sizeable demand or supply of the Units in the Exchange may lead to market price of the Units to quote at premium or discount to NAV. As the Units allotted under respective Series of the Scheme will be listed on the Exchange, the Mutual Fund shall not provide for redemption / repurchase of Units prior to maturity date of the respective Series.</p>

Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off balance sheet exposures, notes, a u d i t o r s ' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the fund will ensure that these instruments are sufficiently backed by assets.</p>	<p>Reinvestment Risk</p> <p>This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.</p>
Risk Description	Risk Mitigants/management strategy										
<p>Market Risk</p> <p>As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	<p>In a rising interest rates scenario the Fund Managers will endeavor to increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.</p>										
<p>Liquidity or Marketability Risk</p> <p>This refers to the ease with which a security can be sold at or near to its valuation Yield-To- Maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.</p>	<p>The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The fund will however, endeavor to minimise liquidity risk by investing in securities having a liquid market.</p>										
<p>Credit Risk</p> <p>Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk..</p>	<p>A traditional SWOT analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off balance sheet exposures, notes, a u d i t o r s ' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the fund will ensure that these instruments are sufficiently backed by assets.</p>										
<p>Reinvestment Risk</p> <p>This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.</p>
