Please read the Scheme Information Document carefully before signing the application form and tendering payment. The application form should be filled in Block letters in English only.

## A) INVESTORS DETAILS

- Applicant's name and address must be given in full (P.O. Box No. alone is not sufficient).
- All communication and payments shall be made to the first applicant or the Karta in case of HUF.
- The subscription amounts can be tendered by cheque/ DD payable locally/ RTGS/ NEFT/ Fund Transfer at any of the AMC offices or CAMS Collection Centres, crossed "A/c Payee only".

## B) PAN DETAILS

As per SEBI Circular No. MRD/DoP/Cir- 05/2007 dated April 27, 2007, it is now mandatory that Permanent Account Number (PAN) issued by the Income Tax Department would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction. Accordingly investors will be required to furnish a copy of PAN together with request for fresh purchases, additional purchases and systematic investments registration (SIP). Application Forms without these information and documents will be considered incomplete and are liable to be rejected without any reference to the investors. The procedure implemented by the AMC and the decisions taken by the AMC in this regard shall be deemed final.

## C) Details for compliance with Anti Money Laundering (AML) regulations

Prevention of Money Laundering Act, the SEBI Circulars on Anti Money Laundering and the Client Identification implementation procedures prescribed by AMFI interalia require the AMC to verify the records of identity and address(es) of investors. To ensure adherence to these requirements, investors are required to approach Points of Service (POS) (list of POS available on amfiindia.com) appointed by any of the KYC Registration Agency and submit documents for completion of appropriate KYC checks. The details for KYC compliance can also be downloaded from AMFI website, www.amfiindia.com or website of the mutual fund, www.idfc.com. The Mutual Fund website also prescribes the list of documents that can be submitted by investors to the POS to get their KYC checks completed.

It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to furnish such documents and information as may be required to comply with the Know Your Customers (KYC) policies under the AML Laws. Applications without such documents and information may be rejected.

In terms of SEBI circulars dated April 27, 2007, April 03, 2008 and June 30, 2008 read with SEBI letter dated June 25, 2007, Permanent Account Number (PAN) would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction, except (a) investors residing in the state of Sikkim; (b) Central Government, State Government, and the officials appointed by the courts e.g. Official liquidator, Court receiver etc. (under the category of Government) and (c) investors participating only in micro-pension. SEBI, in its subsequent letters dated June 19, 2009 and July 24, 2012 has conveyed that systematic investment plans (SIP) and lumpsum investments (both put together) per mutual fund up to Rs. 50,000/- per year per investor shall be exempted from the requirement of PAN. Accordingly, investments in IDFC Mutual Fund (including SIP investment where the aggregate of SIP installments in a rolling 12 months period or in a financial year i.e April to March) of upto Rs 50,000/- per investor per year shall be exempt from the requirement of PAN. However, eligible Investors (including joint holders) should comply with the KYC requirement through registered KRA by submitting Photo Identification documents as proof of identification and the Proof of Address [self-attested by the investor / attested by the ARN Holder/AMFI distributor]. These exempted investors will have to quote the "PERN (PAN exempt KYC Ref No) in the application form. This exemption of PAN will be applicable only to investments by individuals (including NRIs but not PIOs), joint holders, Minors and Sole proprietary firms. PIOs, HUFs and other categories of investors will not be eligible for this exemption.

Thus, submission of PAN is mandatory for all other investors existing as well as prospective investors (except the ones mentioned above) (including all joint applicants/holders, guardians in case of minors, POA holders and NRIs but except for the categories mentioned above) for investing with mutual funds from this date. Investors are required to register their PAN with the Mutual Fund by providing the PAN card copy (along with the original for verification which will be returned across the counter). All investments without PAN (for all holders, including Guardians and POA holders) are liable to be rejected. Application Forms without quoting of PERN shall be considered incomplete and are liable to be rejected without any reference to the investors. The procedure implemented by the AMC and the decisions taken by the AMC in this regard shall be deemed final.

After completion of KYC compliance, investors need to approach KRA for Change of Address and not Registrar (CAMS). In respect of KYC compliant Folio, prospective Change of Address received along with transaction slip will not be processed by Registrar (CAMS). The AMC reserves the right to reject subscription requests in the absence of appropriate compliance with the AML Laws.

In line SEBI circular No. MIRSD/Cir-5/2012 dated April 13, 2012 and various other guidelines issued by SEBI on the procedural matters for KYC Compliances, the following additional provisions are applicable effective December 1, 2012:

- In case of an existing investor who is already KYC Compliant under the erstwhile centralized KYC with CVL (CVLMF) then there will be no effect on subsequent Purchase/Additional Purchase (or ongoing SIPs/STPs, etc) in the existing folios/accounts which are KYC compliant. Existing Folio holder cannot open a new folio with IDFC Mutual Fund with the erstwhile centralized KYC.
- In case of an existing investor who is not KYC Compliant as per our records, the investor will have to submit the standard KYC Application forms available in the website www.cvlkra.com along with supporting documents at any of the SEBI registered intermediaries at the time of purchase / additional purchase/ new registration of SIP/STP etc. In Person Verification (IPV) will be mandatory at the time of KYC Submission. This uniform KYC submission would be a onetime submission of documentation.
- Investors who have complied with KYC process before December 31, 2011 (KYC status with CVL-KRA or CAMS-KRA as "MF - VERIFIED BY CVLMF") and not invested in the schemes of IDFC Mutual Fund i.e. not opened a folio earlier, and wishes to invest on or after December 01, 2012, such investors will be required to submit 'missing/not available' KYC information and complete the IPV requirements.
- In case of Non Individual investors, complied with KYC process before December 31, 2011, KYC needs to be done afresh due to significant and major changes in KYC requirements.
- Further, investors investing under a SIP up to Rs. 50,000 per year i.e. the aggregate of installments in a rolling 12 month period ("Micro SIP"), are also required to comply with the above mentioned KYC procedure. However, they are exempt from the requirement of providing PAN as a proof of identification.

**Ultimate Beneficial Owner(s)** : As per the requirements of Anti-Money Laundering related laws and regulatory guidelines on client due diligence and identification of Beneficial Ownership, investors (other than Individuals) are required to provide details of 'Ultimate Beneficial Owner(s) [UBO(s)]'. For the purpose of these guidelines, UBO means the natural person or persons who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, and includes those persons who exercise ultimate effective control over a legal person or arrangement. In case the investor or owner of the controlling interest is a company listed on a stock exchange or is a majority owned subsidiary of such a company, the details of shareholders or beneficial owners are not required to be provided. Non-individual applicants/investors are mandated to provide the details on Ultimate Beneficial Owner(s) (UBOs) by filling up the

declaration form for 'Ultimate Beneficial Ownership'. Please contact the nearest Investor Service Centre (ISC) of IDFC Mutual Fund or visit our website www.idfc.com for the Declaration Form.

In case of any change in the KYC and / or beneficial ownership information, the investor should immediately intimate IDFC AMC / its Registrar / KRA, as may be applicable, about such changes.

All investments in IDFC Mutual Fund need to comply with the PAN/PERN and KYC (including UBO) requirements as stated above, failing which the AMC/Trustee reserve the right to reject the application.

# KEY INFORMATION MEMORANDUM

This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. For further details of the scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors' rights & services, risk factors, penalties & pending litigations etc. investors should, before investment, refer to the Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website [www.idfcfm.com](http://www.idfcfm.com).

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

<b>Investment Objective</b>	The Fund seeks to generate long term capital appreciation along with current income by investing in a mix of equity and equity related securities, debt securities and money market instruments. <u>Disclaimer:</u> There is no assurance or guarantee that the objectives of the scheme will be realised.
-----------------------------	---

<b>Asset Allocation</b>	<u>Under normal circumstances</u>			
	<b>Instrument</b>	<b>Indicative Allocation (% of Net Asset)</b>		<b>Risk Profile</b>
		<b>Minimum</b>	<b>Maximum</b>	
	Equity and Equity related instruments	30%	60%	Medium to High
	Net Equity Arbitrage Exposure*	5%	15%	Medium to High
	Debt Securities and Money Market Instruments	35%	60%	Low to Medium
	*Equity exposure would be hedged with corresponding equity derivatives of 5% - 15%. The idea is not to increase equity exposure by using derivatives. Arbitrage will have fully set-off position with Zero Net Market Exposure. To the extent of arbitrage allocations, the Scheme would hold spot market positions only for the purpose of arbitrage opportunities and not to benefit from any upside potential that stocks may provide in the present or in future.			
	<u>Under Defensive circumstances (i.e., when the arbitrage opportunities in the market are not adequate, in view of the fund manager):</u>			
	<b>Instrument</b>	<b>Indicative Allocation (% of Net Asset)</b>		<b>Risk Profile</b>
		<b>Minimum</b>	<b>Maximum</b>	
	Equity and Equity related instruments	40%	60%	Medium to High
	Debt Securities and Money Market Instruments	40%	60%	Low to Medium
	Investment in Securitised Debt - up to 15% of the net assets Investment in Foreign securities - up to 50% of the net assets Investment in Securities lending - up to 20% of the net assets with maximum single party exposure restricted to 5% of the net assets. Investment in Derivatives - up to 50% of the net assets. Gross Exposure to Repo of Corporate Debt Securities - up to 10% of the net assets The Scheme may engage in short selling of securities in accordance with the applicable guidelines / regulations. The Scheme may also invest in units of debt and liquid mutual fund schemes and Equity ETFs within the above limits. The portfolio may hold cash depending on the market conditions. Whenever the equity and equity derivative investment strategy (arbitrage strategy) is not likely to give return comparable with the fixed income securities portfolio, the fund manager will invest in fixed income securities. This is subject to the 30 days' rebalancing period provision. The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt and derivatives shall not exceed 100% of the net assets of the Scheme. Cash or cash equivalents with residual maturity of less than 91 (ninety one) days will be treated as not creating any market exposure. The scheme shall not invest in Credit Default Swaps (CDS).			

<b>Investment Strategy</b>	The Fund has an open mandate for allocation between debt and equity. It does not follow any defined model for determining the allocation. <b>Equity allocation:</b> For the equity portion, the scheme shall seek to build a diversified portfolio of companies across market cap and sectors with a large cap bias. <b>Debt allocation:</b> The scheme shall invest in various types of permitted debt and money market securities (including G-Sec) across maturities. The allocation would be based on the prevailing economic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity and other considerations in the economy and markets. <b>Derivatives:</b> The scheme will vary its investment in equity and equity related instruments and move towards exposure to equity derivatives when it needs to bring down the effective equity exposure, depending on the prevailing market conditions. Given that the fund is a balanced fund, allocation between equity and debt instruments will be dynamically managed with the derivative allocation providing opportunities to hedge equity exposure so as to provide a lower risk alternative to equity allocation.
----------------------------	--

<b>Risk Profile of the Scheme &amp; Risk management strategies</b>	Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below. The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in debt and equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools. The Fund has identified following risks management strategies, which are embedded in the investment process to manage such risks. <b>Risk associated with Debt Investment</b>	
	<b>Risk Description</b>	<b>Risk Mitigants/management strategy</b>

<b>Market Risk</b> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	In a rising interest rates scenario the Fund Managers will endeavor to increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.
--	---

<b>Risk Profile of the Scheme &amp; Risk management strategies (Contd..)</b>	<b>Risk associated with Debt Investment (Contd..)</b>	
	<b>Risk Description</b>	<b>Risk Mitigants/Management Strategy</b>
	<b>Liquidity or Marketability Risk</b> This refers to the ease with which a security can be sold at or near to its valuation Yield-To-Maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The fund will however, endeavor to minimise liquidity risk by investing in securities having a liquid market.
	<b>Credit Risk</b> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.	A traditional SWOT analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the fund will ensure that these instruments are sufficiently backed by assets.
	<b>Reinvestment Risk</b> This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.
	<b>Derivatives Risk</b> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that Investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	The fund has provision for using derivative instruments for portfolio balancing and hedging purposes. Interest Rate Swaps will be done with approved counter parties under pre approved ISDA agreements. Mark to Market of swaps, netting off of cash flow and default provision clauses will be provided as per international best practice on a reciprocal basis. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.
	<b>Risks associated with Equity investment</b>	
	<b>Market Risk</b> The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme. The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.	Market risk is a risk which is inherent to an equity scheme. The scheme may use derivatives to limit this risk.
	<b>Liquidity risk</b> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	The fund seeks to control such risk by investing in such stocks having strong fundamentals, sound financial strength and superior quality of management and highly liquid papers. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
	<b>Derivatives Risk</b> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that Investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	The fund has provision for using derivative instruments for portfolio balancing and hedging purposes. Investments in derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines. The fund will endeavor to maintain adequate controls to monitor the derivatives transactions entered into.

	<b>Arbitrage Risk</b> <b>Liquidity Risk:</b> In case of Arbitrage trades, under abnormal circumstances it will be difficult to square off the transaction due to liquidity being poor in the underlying stock, stock futures or options market.	The fund will aim at taking exposure only into liquid stocks / derivatives where there will be minimal risk to square off the transaction.
